To FCC:

XM Satellite Radio is a wonderful experience. I totally enjoy my satellite radio music broadcasts along with the weather and traffic reports. The quality is uncomparable with normal radio stations. I pay for this service and I feel that the National Association of Broadcasters should not be able to dictate what I am permitted to listen to. I respectfully urge the FCC to reject NAB's Petition 04-160 and to support XM's ability to provide state of the art programming that I demand and deserve. Thank you.
